

Captivating Teens and Adults
Through Fitness and Fun.

Aerial Loop Trio

Captivating Teens and Adults Through Fitness and Fun.

At Trekfit, we design park equipment that inspire movement, foster connection, and create lasting memories.

With thousands of parks in place across North America, we deliver bold, innovative solutions that elevate public spaces and help landscape architects bring high-impact, community-focused designs to life.

Teens are often the most underserved users in today’s parks. Trekfit changes that. Designed to be higher, edgier, and more challenging than traditional playground equipment, our products create spaces where teens can push limits, build confidence, and feel like they belong. It’s time to give them back their place in the park.

Imagine how Trekfit can bring your park vision to life.

Discover the Aura Park

Captivating Teens, Elevating Girls

Designed to captivate and inspire teen girls, Trekfit’s Aura Park brings a new rhythm to public space.

Blending circus spirit with gym energy, it’s all about movement and fun, where climbing, balancing, and playing become empowering experiences.

With 88% of teen park visitors currently being boys, Aura changes the game, giving girls a vibrant space to move freely, challenge themselves, and share moments with friends.

The result: an inclusive park that inspires teens to be active, engaged, and proud of their space.

The Aerial Loop

At the heart of Aura Park stands the Aerial Loop, a bold sculptural structure designed to engage and inspire teen girls.

A true statement piece, it’s the kind of feature that elevates any park design.

Discover the Aerial Loop on p.10

Active Spheres

From simple spheres to Active Spheres

Trekfit is reinventing the spheres with versatile layouts and targeted movements that encourage teens to move, play, and interact within the park.

The Active Spheres’ unique configurations anchor a gathering point and central hub in the park, encouraging teens to meet and connect. They integrate seamlessly into a variety of park designs.

Offered in 10 configurations, the spheres can be arranged as an amphitheater that doubles as an outdoor classroom, an S-shaped sequence, or even an independent fitness zone within a dedicated teen area.

With a wide range of color options, the Active Spheres allow designers to shape the space, reinforce identity or integrate seamlessly into the surrounding landscape. A park classic with a purpose.

Design with intention. Create a space where teens connect and choose to stay.

Specifications

DIMENSIONS	Half spheres 14", 18", 24", 30" Full Spheres 14", 18", 24"
OPTIONS	10 distinct layouts to choose from
AGE GROUPS	Approved ages 5-12

Obstacle Challenges

Trekfit's Obstacle Challenges are a teen favorite.

Looking to engage teens and active adults while delighting the eye? Look no further.

Bold, fun, and built to inspire movement, Trekfit's Obstacle Challenges blend urban art with physical movement. Each piece of equipment offers multiple skill levels, so everyone can push themselves, play, and enjoy the thrill. Include an Obstacle Challenge in your next park design and watch it become the heart of your project.

Net Gain

Challenge teens and active adults to climb, twist, and test their strength like never before.

Standing 14 ft. high (with a 10 ft. model available for younger users or smaller spaces), the Cargo Net features a galvanized steel cable mesh covered in polyester for maximum durability and resistance to abrasion and discoloration.

Its openings are larger than a foot to prevent entanglement, and the entire structure is twisted to offer both positive and negative inclines, letting users tailor the challenge to their own fitness level. Inspired by military-style boot-camp nets, the Cargo Net combines sculptural design with a thrilling climbing experience.

Bring a bold climbing challenge to your park and create a space where teens can test their strength, explore, and play together.

Specifications

DIMENSIONS	Offered in 14 ft. or 10 ft. versions
OPTIONS	Offers multiple levels of difficulty
AGE GROUPS	Approved ages 5-12

Challenge Beams

Invite teens to explore balance, express creativity, and turn the beams into their favorite hangout spot. Whether they’re inventing new routines, practicing gym-inspired moves, or simply hanging out with friends.

Each beam is topped with a special non-slip surface for confident footing. Pair two or more beams together to create a dynamic balance zone that sparks skill, imagination, and friendly challenges.

Specifications

DIMENSIONS	14 ft. long x 3.5 ft. above ground
OPTIONS	Pair 2 Challenge Beams for a perfect balance zone
AGE GROUPS	Approved ages 13+

Crossing of Giants

Create a space where teens and active adults can test balance, flexibility, and agility while having fun jumping from one element to the next.

Inspired by wood stumps, the Crossing of Giants provides both horizontal and vertical challenges for all fitness levels. Perfect as a stand-alone obstacle or as a transition between other stations in a workout course.

Bring a dynamic challenge to your park and create a space where teens can step up, play, and connect.

Specifications

DIMENSIONS	Posts range from 6", 16" to 26" high
OPTIONS	Available in 3 distinct configurations Anti-slip footrests
AGE GROUPS	Approved ages 13+

Urban Boulders

Trekfit presents : The Urban Boulder line.

Adventurous, striking, and built to inspire movement, Trekfit’s Boulder Line turns climbing into a playground of strength and creativity.

Beautiful free-standing sculptures with geometric angles make a visually impressive addition to any space, while offering multiple skill levels so teens and active adults can push themselves, explore, and play.

Bring the Boulder Line to your park and turn every climb into a moment of fun, skill, and connection.

Summit Boulder

Reach New Heights

Inspire teens and active adults to climb, challenge themselves, and explore their limits on a striking, free-standing sculpture of geometric angles.

The Summit Boulder stands an impressive 12 ft high and is inspired by indoor climbing walls. It features hundreds of durable polyester resin grips in a variety of shapes and sizes, with both positive and negative inclines to offer challenges for all skill levels, from recreational climbers to experienced enthusiasts. Its imposing design makes it a visually striking addition to any park.

Add the Summit Boulder in your park design and create a space where climbing, adventure, and connection come together.

Specifications

DIMENSIONS	12 ft. high with 600 ft. ² of climbable surfaces
OPTIONS	Offers 6 distinct climbing paths
AGE GROUPS	Approved ages 5-12

Base & Basecamp

First Steps to Climbing Fun

Encourage young climbers to explore, develop skills, and build confidence on their first Urban Boulders.

Fun and inviting, these compact boulders offer a safe climbing environment perfect for school settings and smaller spaces. They provide a platform for kids to learn essential climbing skills, foster creativity, and develop coordination all while having fun. Ideal as a training ground for future climbers, they set the foundation for a lifetime of movement and confidence.

Bring the Base & Basecamp Boulders to your park design and create a space where young climbers can safely play, grow, and challenge themselves.

Specifications

DIMENSIONS	8 ft. high, perfect for young climbers
OPTIONS	2 configurations available, Base + Basecamp
AGE GROUPS	Approved ages 5-12

Stone Boulders

Small Footprint, Big Adventure

Encourage teens, active adults, and families to explore, climb, and test their skills on a natural-looking boulder.

Inspired by the mysteries of Stonehenge, the Stone Boulders offer just the right challenge for every user. Its limited height makes it accessible for younger or amateur climbers, while the addition of a lintel creates overhangs for more adventurous climbers. With five configurable layouts, the Stones provide endless possibilities for creative climbing paths and fun movement.

Specifications

DIMENSIONS	Climbing elevations: 8 ft., 10 ft. and 12ft. high
OPTIONS	5 configurations to choose from
AGE GROUPS	Approved ages 5-12

Alpine Boulders

Endless Possibilities

Encourage teens and active adults to climb, explore, and challenge themselves on a boulder that adapts to every skill level.

Completely modular and expandable, the Alpine is composed of 10 ft high connectable modules, allowing you to create endless configurations to fit your park vision. Adjustable decline sections at both ends add another layer of challenge.

Specifications

DIMENSIONS	Composed of 10 ft. high connectable modules
OPTIONS	6 configurations to choose from
AGE GROUPS	Approved ages 5-12

Specifications

DIMENSIONS	13 pieces of equipment to choose from
OPTIONS	Get inspired by our 5 circuits
AGE GROUPS	Approved ages 13+

DISCOVER THE FITNESS CIRCUITS IN ACTION 

Why including fitness equipment matters for teens

Teens muscle-strength development phase
Girls: 13 - 15 years old
Boys: 16 - 18 years old

A crucial window where the right activities make a lasting difference.

While designing your next teen park, include a Trekfit fitness circuit to give teens the space to build strength, confidence, and lifelong healthy habits.

Whether you’re designing a high-energy space for teens or a more versatile park that welcomes active adults, Trekfit’s fitness circuits and calisthenics stations bring structure and purpose to your overall fitness offering.

Fitness Circuits

Put simply, a circuit is a series of exercises that one executes with little or no break as one moves from station to station.

This has the advantage of burning the maximum amount of calories in the shortest amount of time while engaging the cardiovascular system.

Each circuit is comprised of three phases: warm up, workout and stretching, and can be followed simply by reading the instruction panel by each station.

Instructional Videos

A detailed instructional video of each exercise is available on the user’s smartphone just by reading the QR code.

Mobile Applications

The mobile application helps locate the Trekfit fitness parks, offers a list of equipment available in each park, while offering specific training programs based on the user’s fitness ability and goals.

Calisthenics

The ultimate challenge for teenagers and young adults.

Calisthenics training uses one’s own body weight for optimal training. Developed by the military, calisthenics have become a popular urban discipline around the world and is being practiced more and more by young people in universities and colleges.

DISCOVER OUR CALISTHENIC’S CREW IN ACTION

Our calisthenics racks were developed in collaboration with Canadian experts, for beginners and pros alike.

Designed for all skill levels, our training system enables novices to develop acrobatic skills quickly, while still challenging advanced users.
